MY KID IS NOT CRAZY

A SEARCH FOR HOPE IN THE FACE OF MISDIAGNOSIS

Sat, 3 June 2017
7:00 PM to 9:30 PM

Cardel Theatre - Calgary, AB
180 Quarry Park Blvd SE

The Documentary

My Kid is Not Crazy: A Search for Hope in the Face of Misdiagnoses is an award-winning documentary film by Emmy-nominated director Tim Sorel about the post-infectious autoimmune encephalitis condition known as **Pediatric Acute-Onset Neuropsychiatric Syndrome (PANS)** and **Pediatric Autoimmune Neuropsychiatric Disorders Associated with Streptococcal Infections (PANDAS)**. The film tracks the journey of 6 American children with PANS/PANDAS and their families as they become tangled in a medical system where there is fierce disagreement about how to help them. The film also describes the struggle of Dr. Susan Swedo, principal investigator with the National Institute of Mental Health in Maryland, to overcome the source of the disagreement about PANS/PANDAS.

Panel Discussion

Dr Marvin Fritzler MD, Calgary (Director, Researcher at Mitogen Labs - autoimmune research facility; Professor, Cumming School of Medicine)

Dr Meghan Haggarty ND, Calgary (Specialist in PANDAS/PANS)

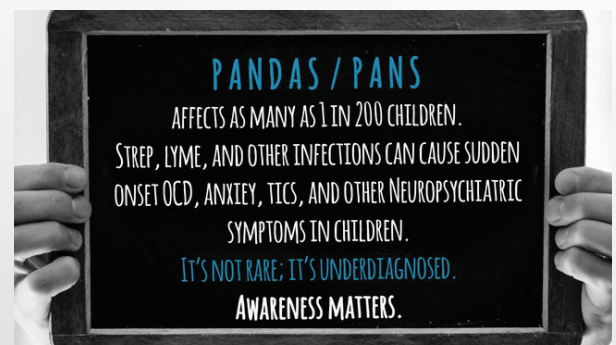

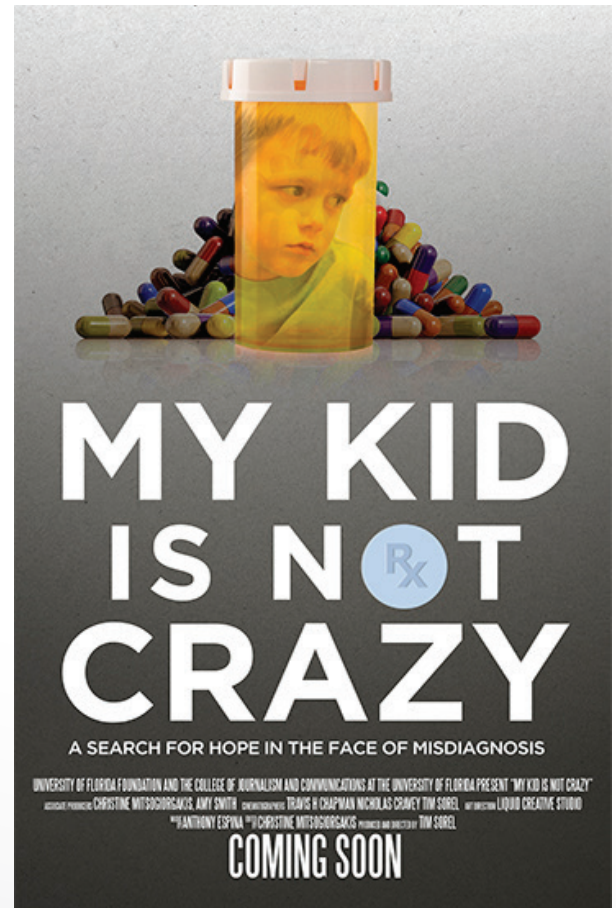

Diana Pohlman, California (Founder, Executive Director of PANDAS Network)
